

Construction Systems

Speedframe

The Dexion Speedframe construction system allows you to design & build your own frameworks. The tube can be simply cut to length, inserts tapped in & the joints (the connecting pieces) put together; add a few accessories & the framework can become whatever you require! A bench or desk frame, a trolley, a variety of display stands.

- ✓ Sturdy 25mm tube construction
- ✓ One-piece re-useable joints with plastic inserts for strong, rigid frameworks
- ✓ No special skills required
- ✓ All components are pre-finished
- ✓ Easy to assemble & re-assemble
- ✓ Pack size: 8 x 3.05m lengths
- ✓ Full design and cutting service available
- ✓ Email us your designs, & we will turn your ideas into reality
- ✓ Order your tube pre-cut to size
- ✓ Each joint requires an insert
