PALLET RACK INSPECTIONS

Keeping your warehouse safe

there's more to every workplace

PALLET RACK INSPECTIONS

Regular rack inspections help to minimise the number and severity of warehouse accidents. Our rack inspectors offer a comprehensive, convenient and cost effective way to keep your warehouse safe and compliant with Health & Safety regulations.

Over the year, moving goods, modifying the configuration and general knocks through daily use can cause changes in the capacity of your racking and potentially lead to accidents - a risk to both man and material.

Qualified Inspectors can spot these changes early and help eliminate and reduce future costs.

Our SEMA Approved Rack Inspectors carry out comprehensive annual inspections. Providing you with detailed reports offering professional advice and highlighting areas that require attention, immediately or in the near future, through an easy to understand traffic light scoring system.

Inspections comply with all government legislation and industry guidelines.

- » Comprehensive professional inspection by SEMA Approved Rack Inspectors (SARI)
- » Experienced Inspectors certified to SEMA standards
- » Independent expert to assess your equipment
- » Detailed inspection report
- » No interruption to operations
- » Early risk discovery minimised future repair costs
- » Prevention of damage to people or goods
- » Extending lifespan of facilities

Our rack inspectors are **SEMA**
(Storage Equipment Manufacturers Association)
approved and hold the **SARI** certificate

Annual Inspections

No need to remember when your next inspection is due, our rack inspection team will contact you to remind you when you next need an inspection carried out.

**DAMAGED UPRIGHTS PROVIDE
HAZARDOUS CONDITIONS**

**FAILURE TO INSPECT CAN LEAD TO A
RACK COLLAPSE**

**RACKS AT ALL HEIGHTS
NEED TO BE INSPECTED**

INCLINATION

Maximum inclinations for both empty and fully loaded racks should not be exceeded.

LOAD WEIGHT & PLACEMENT

The weight of the load must not exceed max weight capacity or be misplaced.

DEFORMATION

Even slightly bent beams and uprights can be a sign of potential danger. Beams and uprights must always be replaced.

SEMA DISTRIBUTOR COMPANY

We are a **SEMA DISTRIBUTOR COMPANY** and were delighted to be awarded the *Highly Commended status in our latest audit.*

“The SEMA Distributor Company (SDC) qualification indicates that the company is dedicated to the supply of quality storage equipment. To become part of the SEMA Distributor Group (SDG) the company must demonstrate a high level of commitment to safety standards, work to industry codes of practice and be regulated by a random audit”

“HIGHLY COMMENDED”
QUALITY ASSURANCE SCHEME AUDIT 2014

Legislation

Maintaining rack safety is not simply an important warehouse practice: it is a legal obligation.

Under the Workplace (Health, Safety and Welfare) Regulations of 1992 and the Provision and Use of Work Equipment Regulations (PUWER) of 1998, employers are legally required to inspect their work equipment, including all pallet racking.

This means that any business with even as little as one bay of racking is required to carry out regular SEMA-approved examinations.

Racking should be inspected on a regular basis and should be carried out in accordance with SEMA Guidelines No.6 - Guide to the Conduct of Pallet Racking and Shelving Surveys.

The frequency of inspections depends on a wide variety of factors that are particular to the site, however the first inspection should be carried out within 6 months of the installation becoming operational and thereafter at a maximum of 12-month intervals. Records of these inspections must be maintained.

LEGISLATION

HEALTH & SAFETY AT WORK ACT 1974

- » **Section 2:** Duties of the Employer
- » **Section 7 & 8:** Duties of Employees

MANAGEMENT OF HEALTH & SAFETY AT WORK REGULATIONS 1999

- » **Regulation 3:** Risk Assessment
- » **Regulation 11:** Capabilities and Training

PROVISION AND USE OF WORK EQUIPMENT REGULATIONS 1998 (PUWER)

- » **Regulation 5:** Maintenance
- » **Regulation 6:** Inspection
- » **Regulation 22:** Maintenance Operations
