SAFETY ACCESSORIES

Accessories can help you to enhance safety in your warehouse

Storage solutions since 1947

more expertise

Successfully completing the Achilles programme and achieving the accreditation reiterates our dedication to providing quality products, services, compliance and commitment to our customers increasing demands regarding health and safety, environmental and corporate governance.

We are the largest distributor of Dexion in the UK. Our planning and installation teams are recognised as experts in the industry.

"HIGHLY COMMENDED"
QUALITY ASSURANCE SCHEME AUDIT 2014

As a SEMA distributor company we work to the latest industry standards and codes of practice. We are one of a handful of companies in the UK able to offer independent SEMA approved pallet rack inspections.

Prince's Trust

At CSI we are proud to support The Prince's Trust in their great efforts to support young people into work and training. To help raise funds we donate £1 for every order placed on our website.

As a BSI member we have achieved ISO9001 for over 10 Years.

csigroup.info

One supplier supporting your workplace through its whole lifecycle:
Design, Installation, Product Supply, Spares & Repairs and Re-design.

CSI is the workplace product and solutions provider that gives you more.

*We offer our customers **more for** their workplace so they can get **more from** their workplace.*

CSI has been built on the 35 year reputation of trading as ESE, one of the largest industrial storage companies in the UK. Our e-commerce division has transformed our brand into a “more” company for industrial and commercial products and solutions.

We offer a supportive working dynamic - Whatever it is that you are in the business to do, we're in business to help you do it.

more for you

- » The best products and solutions at the best prices.
- » Delivering efficiency, safety and return on investment.
- » 15,000 Products online designed for the industrial and commercial workplace.
- » Combined expertise and experience of our solutions and products teams.
- » Customer service, before, during and after sales.
- » Help to unlock, realise and release the potential within your workplace.

there's more to every workplace

PROTECTORS

Ensuring your warehouse is safe and complies with the latest legislation is critical. CSI can offer you a wide selection of protection for uprights and frames, ensuring your pallet racking is well protected against the impacts from fork lift truck collisions.

Rack end protectors

A robust barrier, ideal for protecting vulnerable areas from forklift truck damage and impacts, a variety of lengths are available, 400mm high.

Shock absorbing protector

Bolted to the front of the racking upright the metal guard offers protection with shock absorbing foam inside.

For more information see:
www.dexionstore.co.uk

Snap on Column Guard

Protect-it™ can absorb large impacts and easily attaches to a column without the need for additional fasteners. 3 pieces each 133mm high, totalling 400mm.

Floor mounted Column Guard

A substantial form of protection for pallet racking uprights, against low level impact.

PROTEX Safety-Barrier-System

Can be used as collision and impact protection for offices, machines, conveyor systems and as a separator. Material thickness: 3 mm.

Corner wheel protector

Specifically designed for protection of uprights placed on corners in the warehouse. A roller at the base helps deflect impacts.

C rail protection barrier

Designed to protect racking, pedestrians, expensive equipment, offices and partition walls. Material thickness: 5 mm. Smooth surface that allows labels to be glued on.

Tubular rack protection

These tubular barriers at 500mm high and made of tough steel are built to withstand the challenges of everyday activities.

Metal Bollards

Metal safety bollards are available either painted or galvanised. Manufactured from robust steel tube, these 164mm diameter barriers are available in a range of heights.

Pallet gate

Used on mezzanines and multi-tier structures this see-saw pivoting pallet gate provides edge protection for pallet movements.

For more information see:
www.dexionstore.co.uk

PALLET RACKING ACCESSORIES

Dexion offers you a wide selection of pallet racking accessories for you to create your own tailor-made storage solution.

From pull-out units which enable you to pick from pallets in a safe and ergonomic way, to anti collapse mesh that will prevent goods from falling on warehouse pedestrians, to the humble safety pin which is the key safety accessory.

For more information see:
www.dexionstore.co.uk

Cable reel suspension

For storage of large cable reels or carpet rolls. A supporting rod, with high weight capacity, can easily be taken in and out of position.

Anti Collapse Mesh

Anti collapse mesh prevents any risk of spillage from pallets, offering protection for a variety of scenarios.

Wiremesh shelving

Mesh shelves are placed between beams to support damaged or undersized pallets, or boxed goods taken off a pallet for picking.

Tunnel guard

Mesh Shelves are used above tunnel bays to protect against goods falling down.

Pull-out unit

A pull-out unit enables safe and ergonomic handling of goods, directly from the rack, without taking it off the pallets. Load capacity 1000kg.

Pallet support bars

Fixing over the front and rear beams these bars support undersized or damaged pallets.

Sacrificial Leg

A load bearing section is added to the initial 1000mm of an aisle facing upright. A removable piece of upright is then fitted to the front, this is not load bearing and can easily be replaced if damaged, without the need to unload the complete bay.

Pallet stop - vertical & horizontal

A useful safety feature which prevents pallets from falling from the back of the rack.

Load signs

Load signs indicating load capacities must be fitted on all racking and shelving. They must be clearly visible for all users.

Locking pin

Beam locking pins are required in the connector of every beam as they prevent beams being accidentally dislodged.

Drum cradle

Ideal for the storage of cable reels or barrels, preventing rolling and movement.

Drip tray

If liquids might leak, then drip trays may be placed on the floor (or per level). The drip trays are galvanized. Various sizes are available.

For more information see:
www.dexionsotre.co.uk

Accessories

With the right accessories you can adapt every pallet racking system perfectly to fit your particular needs. Below is a selection of the accessories we offer.

pallet rack inspections

Regular rack inspections help to minimise the number and severity of warehouse accidents. Our rack inspectors offer a comprehensive, convenient and cost effective way to keep your warehouse safe and compliant with Health & Safety regulations.

Over the year, moving goods, modifying the configuration and general knocks through daily use can cause changes in the capacity of your racking and potentially lead to accidents - a risk to both man and material.

Qualified Inspectors can spot these changes early and help eliminate and reduce future costs.

Our SEMA Approved Rack Inspectors carry out comprehensive annual inspections. Providing you with detailed reports offering professional advice and highlighting areas that require attention, immediately or in the near future, through an easy to understand traffic light scoring system.

Inspections comply with all government legislation and industry guidelines.

Our rack inspectors are **SEMA**
(Storage Equipment Manufacturers Association)
approved and hold the **SARI** certificate

- » Comprehensive professional inspection by SEMA Approved Rack Inspectors (SARI)
- » Experienced Inspectors certified to SEMA standards
- » Independent expert to assess your equipment
- » Detailed inspection report
- » No interruption to operations
- » Early risk discovery minimises future repair costs
- » Prevention of damage to people or goods
- » Extending lifespan of facilities

To arrange an inspection
CALL US NOW ON 01506 413 313
or visit us at **csigroup.info/racksafety**

Annual Inspections

No need to remember when your next inspection is due, our rack inspection team will contact you to remind you when you next need an inspection carried out.

**DAMAGED UPRIGHTS PROVIDE
HAZARDOUS CONDITIONS**

**FAILURE TO INSPECT CAN LEAD TO A
RACK COLLAPSE**

**RACKS AT ALL HEIGHTS
NEED TO BE INSPECTED**

INCLINATION

Maximum inclinations for both empty and fully loaded racks should not be exceeded.

LOAD WEIGHT & PLACEMENT

The weight of the load must not exceed max weight capacity or be misplaced.

DEFORMATION

Even slightly bent beams and uprights can be a sign of potential danger. Beams and uprights must always be replaced.

We are a **SEMA DISTRIBUTOR COMPANY** and were delighted to be awarded the *Highly Commended status* in our latest audit.

"The SEMA Distributor Company (SDC) qualification indicates that the company is dedicated to the supply of quality storage equipment. To become part of the SEMA Distributor Group (SDG) the company must demonstrate a high level of commitment to safety standards, work to industry codes of practice and be regulated by a random audit"

Legislation

Maintaining rack safety is not simply an important warehouse practice: it is a legal obligation.

Under the **Workplace (Health, Safety and Welfare) Regulations of 1992** and the **Provision and Use of Work Equipment Regulations (PUWER) of 1998**, employers are legally required to inspect their work equipment, including all pallet racking.

This means that any business with even as little as one bay of racking is required to carry out regular SEMA-approved examinations.

Racking should be inspected on a regular basis and should be carried out in accordance with SEMA Guidelines No.6 - Guide to the Conduct of Pallet Racking and Shelving Surveys.

The frequency of inspections depends on a wide variety of factors that are particular to the site, however the first inspection should be carried out within 6 months of the installation becoming operational and thereafter at a maximum of 12-month intervals. Records of these inspections must be maintained.

LEGISLATION

HEALTH & SAFETY AT WORK ACT 1974

- » **Section 2:** Duties of the Employer
- » **Section 7 & 8:** Duties of Employees

MANAGEMENT OF HEALTH & SAFETY AT WORK REGULATIONS 1999

- » **Regulation 3:** Risk Assessment
- » **Regulation 11:** Capabilities and Training

PROVISION AND USE OF WORK EQUIPMENT REGULATIONS 1998 (PUWER)

- » **Regulation 5:** Maintenance
- » **Regulation 6:** Inspection
- » **Regulation 22:** Maintenance Operations
